Web Developer

Institute of Software Engineering
2022 - until now

SKILLS

- UI/UX 
- Visual Design 
- Wireframes 
- Storyboards 

EXPERIENCE

Web Design

Arowwai Industries

No.25, Sri Sarananda Mw, Mathugama

A web designer's experience is a journey of continuous learning and evolution in the dynamic world of web development. With each project, a web designer gains practical insights into user interface and user experience (UI/UX) design, honing skills in layout, color theory, and typography. They become adept at translating client visions into visually appealing and functional websites.
